TWOS COMPANY DUO

To say that Nikki sings accompanied by David on keyboards totally undervalues their performance. The sound they produce is enhanced by the use of professional MIDI tracks, which David has developed to complement their vocal and keyboard skills.

The sounds produced by supporting bass players, drummers, guitarists, brass and string sections are blended with live vocals and keyboard. The result is a complete stereo performance of songs which retain their "big sound" appeal, whilst maintaining full control over choice, volume and balance. Two talented musicians supported by the latest technology, and who take up very little space.

They have developed a repertoire of covers and standards from 50's to 90's – either for easy listening over a drink or meal or for dancing. Raising the tempo and volume for dancing is achieved through the use of a hi-fi quality, amplification system. The stereo sound produced is much fuller than that associated with some other Duo's, but totally adaptable to the surroundings. Slightly different but reassuringly entertaining.

THE X FACTOR DUO consists of Nicolette Street & Marc Abercrombie. This duo keeps their repertoire up to date with all the latest chart hits.

Nicolette covers all the female divas and Marc all the timeless artists and they of course cover the top name duos.
